**Sant Joan de Déu**  
Barcelona · Hospital

Dear friends:

Interest for Congenital Hand Anomalies is increasing .

For experienced and younger surgeons .

We wish to promote a maximum of discussions on some crucial topics with the great help of some of the most knowledgeable European surgeons : Rolf Habenicht ( Hamburg ) , Paul Smith ( London).

During that meeting , the presentations will cover most of the subject and , as said before , some topics like : Syndactylies , Polydactylies , Thumb Hypoplasia , Microsurgery , will be explored in depth with face to face and discussions .

We hope to see you in Barcelona in March .

A. Gilbert , P. Raimondi , F. Soldado
